TAROT

Rev. Leona

The Tarot card for today is Strength

Key terms for this card are Determination, Courage, Integrity, Resourcefulness

Message of Strength

Strength is needed at this time. The power of strength is the power to be able to face the future with hope. Strength is the ability to face adversity with a smile. There are times when we face destiny and wonder why us? Strength allows us to move past this and understand that some day we will know why us. Strength gives us the ability to be happy and to smile when the world around us is crumbling. Strength gives you the power to stand through trials and to move forward even when the path is not visible. Now you will see that there are reasons for everything. Using the power of strength will allow you to be a light for others. When you are facing trials you will never know who is there and who is watching. Your strength will be an inspiration for others and one day you will see the strength of others and you will understand how your own strength have been infused into them.

The Power of strength is finding the harmony between action and knowledge. There are times when it takes great strength to not take any action. When we are faced with adversity our first instinct it to defend and attack to make the pain of the trials disappear. Strength wants you to look at what is happening and learn the patience required to make the best decision possible. Your strength comes for many different sources. This is a time for you to find balance. Using your light and dark will allow you to be able to use all of the resources that you have. Now is the time for you to use your strength to bring balance to your spirit. When you have achieved this balance you will then be able to heal all of the wounds that are causing your discomfort. Strength shows you how to tame all of your baser instincts. There are animal instincts that lie within all of us. It is difficult to take charge over these instincts. Fear is a very primal emotion. When our minds fall prey to these primal feelings we tend to forget the logic and the intuition that we have managed to master and we give ourselves over to the irrational and mindless actions that accompany. Strength comes in to teach you how to control and harness these feelings. When fear is harnessed it can become a very strong and powerful ally. Strength will show you how to use the power of your more primal feelings to become strong and independent. When you use these feelings you are able to face many more trials than you would have been able to face before. This is the time for you to light the fire of your own strength and move through the flame to find the true strength of your own spirit.

Strength wants you to tap into the power of the universe. Know that there are some powers that have been stripped from the people. There has been fear and power that has driven the power of divinity out of the hands of the people. This is the time for you to tap into these powers and know and understand them. This is the time to tame the lion and to take back the night. Here you will see that there are many talents and many skills that you will be able to develop when you are willing and able to take control. Now is the time for you to look to the past and see what others have done to find the strength. With Strength come endurance. Here you will find the ability to meet many challenges without loosing your stamina. Strength will fill you with the ability to face any trial and any obstacle with pride and determination.

Meditation for Strength

Meditations for this month will require one candle and a journal.

Find a quiet place where you will be able to sit without being disturbed.

Take a deep breath and feel your body relax.

Allow your breathing to grow slow and deep.

With each breath feel the stress and anxiety of the day flow away.

Feel yourself filling with peace and light.

Allow yourself to find your center.

When you are relaxed light the candle and close your eyes.

Focus on the following questions.

What kind of strength do you possess?

Where do you feel you are lacking in strength?

What can you do to make yourself feel stronger?

Write the answers in your journal. Focus on the following questions.

What do you do with your strength?

What do you fear?

How do you react to fear?

What can you do to harness this fear and make it a strength?

Write your answers in your journal and when you are ready open your eyes and extinguish the candle.

Now is the time for you to face your fears.

This week's article:

Community Brainstorm: Can Your Idea Change the World?

Author Veronica Peterson

“Be the change you want to see in the world.”

We all know the Gandhi quote and never has it rung more true than the today, as we see the butterfly effect of a single action having repercussions far and wide. What better time than the present, when the internet has given lightening speed to our ideas and the greatest minds of our time can be easily accessed through a few key strokes, to use our technology for the greater good—as a participatory exchange of ideas?

While pondering this, I discovered the “Why Not?” Innovation Experience (sponsored by Care2 advertiser Toyota), in which they are asking all of us to contribute our best ideas for water conservation, air purification, land preservation, community involvement and alternative energy development. Reading through some of the entries I became inspired that maybe, from tiny seedlings of ideas like these, larger movements are born. Here are some of the submissions:

Water

“Let’s invent an easy way to collect gray water from homes with septic tanks (i.e. clothes and dish washing, showers) into a separate holding tank for filtering and reuse in outside activities (garden/yard water, bird baths, etc.)”

Land

“Plant more trees—they produce what we need—and it should be law that for every tree removed for any reason another should be planted close to the same area (the same kind of tree).”

Community

“As a single father paying \$188 a week for daycare, I would like to see more companies offer a daycare service or discount. That would allow for so much extra money to save for retirement, emergencies and my child’s college fund.”

Air

“A greenhouse/solarium attached to the south side of an existing or new home can provide heat, hot water, improved air quality, and added living space. My working model in Utah provides 80 percent of the heat for my home and the next one will be even better. When building our new home—we will even use the sun to cool the space and make electricity. Solar homes are not a new idea. Some of those cliff dwellings in the South West were solar homes as were the New England salt boxes. We have to look back before going forward!”

Energy

“Create a string of gyms, where members exercise on equipment that gathers electricity from the stationary bikes and other recapturing systems. Other considerations—they could be social centers, with a trove of information about energy, healthy living, etc.”

Walt Whitman said, “The genius of the world is not best or most in its executives or legislatures, nor even in its newspapers or inventors, but always most in the common people”.

My “common person” idea? An overhaul of the entire public transportation industry. By following examples of some successful countries, we can make trains and buses more readily available and also pleasant places to be. **What’s yours?**

Letters and Comments!!!!

Andrew K. says

We can convert all power stations to clean geothermal energy by digging a ten kilometre deep, lined and capped water well. The temperature of the cap is three times boiling point, the temperature at which electricity is generated. The conversion of all UK power stations is half the cost of one new build nuclear power station.

Karen F. says

Love all that has been suggested so far. For me, I tend to look at food containers for a second use, i.e. yoghurt pots can be used to start plants in. An old ice cream tub stores my pens and gives me nice memories of when I ate the contents :-). A ceramic pate dish, has become a cat water bowl. You get the idea. Hope you have lots of fun finding ways to reuse what would otherwise have been sent to the rubbish tip.

Stephen L. says

The Earth can heal itself if We give it a chance. But if We continue to Pollute the Earths Atmosphere and use up the Earths Natural Resources the way We did for the Past 109 Years, We are Doomed.

Krishna Prasad says

TALK LESS, WORK MORE, SAVE MORE.

Mike A. says

I think all of these ideas are great and pragmatic.

When I read the questions: "Can your idea change the world?" my inner answer was:

"It always does."

It is like that idea of the idea of the butterfly that flaps its wings and causes a tornado 1000 miles away.

Each of our thoughts changes the world--our world and our perception of reality. All of these fixes are wonderful, but I'd like to pose the idea that by continually being mindful and present we change the world for the positive in a much bigger way than changing light bulbs or some such small fix. By being present and mindful all of these other pragmatic solutions happen by our right/correct action and function. There is nothing wrong with pragmatic solutions to problems. They are valuable. But I think that if we are truly present and mindful all of those solutions and much, much more will appear through our state of being.

Deborah Martin says

Here's something we can all do every day, every time you pick up a fork. Simply change your diet to a healthy plant-based diet and stop eating the toxic meat and dairy foods. The meat industry causes almost 40% more greenhouse gas emissions than all the world's transportation systems combined. In other words, all cars, buses, trains, planes, and ships combined. So whilst our government promotes switching lights off and not leaving anything on standby to help fight global warming, the easiest and most effective way you can help our planet is by adopting a

vegan—diet. The truth is, a vegan driving a hummer is polluting less than a flesh eater riding a bicycle. Plus there's more protein and calcium in many plants and it's protein that the body absorbs and recognizes better than from animal products. Yeah!! How easy is that. So 3 times a day you choose to contribute to pollution or not. I stopped eating all meat and dairy over a year ago and I've never felt better!

Gillian V. says

All these ideas have merit. I would like to suggest that businesses concentrate on saving energy by switching off all lights other than safety lights at night. Often one drives along to find whole buildings lit up during the early hours or very late at night. This action would have an immediate effect on the use of energy and allow implementation of more long term programs such as installing wind generated or solar energy both of which will take time to implement.

Cv's Comment...This we have seen the effect of when people and businesses across the world turned their lights out for 1 hour, recently... the carbon footprint savings were awesome.

What do you think??

Hoping to hear from you next issue!!!

To my life you bring height
Watch me, Watch me

The Meaning of Dragonfly

The dragonfly is the only creature capable of great flight maneuverability. The dragonfly can hover move up and down and even fly backwards. The dragonfly allows you to reflect on your own life and the times that have moved you forward or backward, the times that have been great highs and painful lows, and the times where you have not moved at all.

The dragonfly represents you skills and your abilities. With the dragonfly in your life you will have the power to hone your own skills and to become the best that you can be. The dragonfly will be the inspiration that will lead you down a path that others may not be able to follow. Follow the dragonfly and you will be the expert that others will come to for advice. You will be relentless and you will be filled with insight and determination.

The colour of the dragonfly is magnificent. They glow and sparkle in the sunlight. When dragonflies are born they are a pale brown and it is not until they grow and mature that they will be born to flight and to light. This allows you to reflect on your life. You may have been a dull brown but as you grow and mature and as your lessons are learned and your skills are mastered you will indeed glow and shine as the dragonfly.

The dragonflies represent illusion and the power of light. The dragonfly in its maturation will transform. This creature experiences a complete metamorphosis which when reflected upon will show you that through your life change will come. You will change from one form to another and as you do you will develop and grow.

The dragonfly is a creature that is connected to two very different realms. The dragonfly child or nymph is born and lives in the water. Water is the realm of emotion and is the place where you are vulnerable and where you will seek out connections for emotional reasons. The emotional attributes of the nymph may cause you to be overemotional and even melodramatic but this is a stage which will be left behind for the second realm of the dragonfly.

The second realm of the dragonfly comes with maturity. The nymph leaves the water and transforms into the adult dragonfly who now takes to the air. The realm of air rules over logic and reason. Now that you have metamorphasized and grown you will be able to balance the emotional side of you with the logical side.

With the dragonfly in your life you will be able to balance yourself. You will be able to see the strength and to master you own abilities while being able to see through the illusions and falsehood of others. You will be talented and you will be able to see and do things that others cannot. The sight and the maneuverability of the dragonfly will allow you to move forward in life and to be very successful.

Witch School, our long-time educational partner, has made an offer to the Tradition and its member Temples and groups.

THE ORDER OF WORLD WALKERS

This Correllian order is headed by the Rev. Krystel High Correll and she is offering training for those who wish to join the order. The training consists of twelve lessons, one a month, for a year, offered through e-mail.

The purpose of this order is to fulfill the deeper purposes of the Correllian Tradition--advanced psychic and spiritual work, primarily conducted on multi-dimensional levels. This work includes:

Learning to connect and work with your spirit guides. Conscious dying and conscious incarnation. Advanced dream work. Exploring the known boundaries of the multi-dimensional universe, then conducting independent work to go beyond those boundaries. The study of time and advanced work within it. Soul rescue (helping those who are not aware they have died, or are not willing to cross over). Mediumship (being a voice for the so-called dead, visiting the land of the dead and communicating with them, and building a pathway between the living and the dead). Healing, both personal and of our Earth.

These purposes are divided among five houses that consist of the members who are dedicated to the work of the House.

The Order of World Walkers is a working order. The training is only the beginning. Each of the houses offer work that can be done for the rest of your life, if you choose to do it.

I believe that everyone who chooses to become a member of the order chose this before coming into this life time to continue work begun in other lives.

For more in-depth information, including the cost of the lessons, contact me at

May You Blessed Be

THE ORDER OF WEB WEAVERS CRYSTAL WEB MAPPING PROJECT

The Order of the Web Weavers has been working diligently on mapping the Crystal Web. If any of you have a crystal that you have added or removed from the Crystal Web contact us to ensure are records up to date and accurate.

The information we need in order to best catalogue your crystal/s is the following. Your Craft Name and E-mail Address along with your City, State, Country, Latitude, and Longitude. Sent to the following e-mail address: *www@correllianorders.info*

Please include the above information, if you have removed your crystal from the Crystal Web along with 'Remove' in the subject line. If you have added several crystals then we would need a separate entry for each crystal, unless they are located together. If they are located together then please include how many crystals are at that location.

We are excited about this project and hope that you will be too. Once the crystals have been properly catalogued we can then begin placing them on the map program. This will give us a good visualization on the Crystal Web. Thank you in advance for your participation in this wonderful project.

Bright Blessings,

The Order of Web Weavers
