Pagan Calendar August 9 – 15

August 9. On this date, many Wiccans from around the world celebrate the annual Feast of the Fire Spirits. Dried mandrake root or yarrow herb is cast into fires as offerings to the Salamanders.

August 10. A centuries-old festival called Ghanta Karna Day is celebrated annually around this time of August in the Himalayan kingdom of Nepal. The event celebrates the death of Ghanta Karna, a blood thirsty Hindu demon who haunts crossroads and is the sworn enemy of the god Vishnu.

August 11. On this day, an Irish fertility festival known as the Puck Fair begins. The medieval-style festival, which pays homage to the mischievous sprite Robin Goodfellow, continues for three consecutive days. Oddudua, the "Mother of all Gods", is honored on this day by followers of the Santeria religion in Africa and South America.

August 12. The goddess Isis and her search for Osiris (her brother and consort) is commemorated on this day by the Lychnapsia (Festival of the Lights of Isis). Dried rose petals and vervain are burned in small cauldron pots or incense burners as offerings to Isis, and green candles are lit in her honor.

August 13. On this date, the major Pagan festival of Hecate is traditionally held at moonrise. Hecate, the mysterious goddess of darkness and protectress of all Witches, is a personification of the Moon and the dark side of the female principle.

August 14. Every year on this date, a "burryman" (a man wearing a costume of thistle burrs, and representing an ancient fertility god) walks through the streets in many of the fishing villages along the coast of Scotland, collecting donations from the villagers. The origin of the burryman remains a mystery.

August 15. Festival of Vesta. The ancient Roman goddess of the hearth was honored annually on this date in ancient times. Many modern Witches light six red candles and cast herbs into hearth fires on this day to honor Vesta and to receive her blessings for family and home.

An Automatic Writing on Consciousness

By Magical Path

Looking back at the past tells us how we got to where we are. You have arrived was certain awareness, deception and set of tools, and it is with these that we interact with the present to build the future.

The present a sum total collection of accumulated experience, derived from actions, reactions and interactions. As the staging point from which we set off on the next part of a journey. Through spiritual growth and awareness our ability to better deal situations as they arise increases.

It is correct that we create our own destiny, and our day-to-day lives and interactions, but mostly (at our current level of awareness) our knowledge of what the future holds is obscured from the conscious mind (cf. occultism, much of what is spiritual is obscured). The reason for this is to allow the experiencer to experience. That initially is the function and reason for the separation of the parts of the mind. This is the microcosmic version of the concept of God experiencing itself via the “creation” of the universe. This is necessary to facilitate growth in the evolutionary sense as knowledge by itself is not experience of sensations and feelings. Future levels of consciousness extrapolate experiences down to a core level and combined with knowledge serve to create synthesis of what is currently seen as divided. It is correct to perceive a division of mind although fundamentally important to understand that this is how the conscious mind views itself as disconnected from the unconscious, much as man tends to view himself as separate from nature.

Nature does not view man as separate from it, nor does it particularly perceive itself, in the usual sense of self awareness. Nature is (nature is a state of being). The conscious mind is what provides self-awareness (cf. “Lucifer” rebellion). The unconscious by nature, is a state of being. In a sense the conscious mind is a mirror to reflect back that state of being via a process of doing.

This is necessary to achieve a full reintegration of rearranged concepts and ideas into more refined patterns, much in the way crystallisation occurs. This is the process of evolution, an inner-alchemy of purification and recombination. The recombination of the being mind on the doing mind will occur once sufficient permutations of experiencing states of being have occurred. This is both through experience of physical and spiritual states of being. The process can be completed one lifetime if sufficient experiences can be achieved via communication between the unconscious and conscious minds (i.e. undertaking various esoteric activities).

Specific activities to help expediate the process include sensory deprivation, mind control, breathing exercises, and meditation. Esoteric practices have to do with experiencing the unconscious, while mundane life builds increasing self awareness of the physical and conscious self. The single most important interaction of mind is dreaming and all forms of this phenomena (sleeping, waking, visualisation, passive, active). Lucid dreams approximate an advanced state of awareness where the self-aware consciousness is intimately active with the unconscious.

Spell of the Week

SIMPLE CRYSTAL HEALING SPELL

Needed:

3 candles- 2 light blue & 1 white

Allspice & Rosemary (equal parts each) or a Healing type incense
photo or paper with name of recipient a small quartz crystal

Place the candles on your altar or workspace in a semi-circle with the white candle between the two blue ones. Place your incense burner above the white candle. Place the person's name in the center of the layout, with the quartz crystal on top. Light the incense then the candles. Center yourself and inhale the incense as you think of all ill health dispelling from the person and instead being replaced by healing energy, much as the air is filled with the smoke of the incense. Gather your healing energy and when you feel ready, release the energy, directing it through the crystal and to the recipient who's name or photo is beneath it. Give the recipient the crystal to carry as a charm for continued good health.

CRYSTAL AND COLOR VISUALIZATION SPELL FOR HEALING

Invoke the Goddess and God. Light some candles and herbs of the correct healing property. Place the crystal in between the Goddess and God candle and say:

O great goddess

Shine your lunar ray of light upon this crystal

Great Goddess charge this stone with healing power

O great god

Shine you solar ray of light upon this crystal

Great God empower this stone with your magic light

Blessed be

Now touch the crystal with your left hand and visualize a Luna and solar ray of light shining down on the crystal. Feel the energies flowing through the stone. Now hold the crystal with its point toward your body with your right hand and visualize a light of the correct healing color radiating from the crystal to the area of you body where you are sick. Imagine the light healing your body. Now point the crystal away from your body and visualize the negative energies moving out of your body through the crystal. This rite is over.

The Power of Understanding

by Owen Waters

Spiritual consciousness comes a lot easier when you understand spiritual principles and can, therefore, tune into the spiritual realms of consciousness.

Over the last century, the world has experienced a challenge of faith in the Creator and subsequently in religions which have not adapted to the new awareness. Telescopes have expanded our perception of the size of the universe into something so vast that we are challenged to understand how humans on tiny planet Earth can have any significance in such a grand scheme of things.

And yet, within us all, lies a direct connection to the Creator of all the universe. We need an expanded understanding of God as Infinite Being and of ourselves as the eyes and ears of Infinite Being, as we work through a wide variety of experiences in physical form. We need to understand that, by our spiritual nature, we have powers within us that exist because of our divine heritage.

Infinite Being has infinite understanding, infinite love, and the power to create any reality that can be imagined. And, when we turn our attention to our inner selves, so do we!

The idea that we are powerless to make the world a better place is an illusion. When you turn away from the illusion and look within, you are reminded that you can create a better reality and you can make the world a better place.

When you understand spiritual principles, you have the information and the techniques to achieve such positive transformation.

The Insight E-Books on our website are currently available at an unprecedented half-off the already discounted price, so now is a great time to catch up on reading material that can give you the understanding that brings spiritual freedom and empowerment.

Infinite Being Insight E-Books are on sale at just \$4.98 each through August 11th, 2010:

Secrets of the Reiki Symbols and Reiki Healing You Can Do For Yourself

By Tensin Palmo

Reiki symbols are passed from Reiki Master to Reiki Master and are most commonly used for healing and protection. Of Japanese origin, the secrecy of the Reiki symbols is actually a Western tradition. It is not uncommon in Japan to see Reiki symbols displayed very openly, even in public places.

There are several schools of thought when it comes to Reiki. One is that you must be trained in the correct way to use a Reiki symbol before you will be able to activate the benefits.

There is only one way that the symbol will work according to these schools of thought, and you must draw or use the symbol correctly each time in order to activate it.

Other ways of thinking state that you can draw the symbol, trace it with your hand, or even just say the name of the symbol out loud or in your head once you are trained.

One area in which the various ways of thinking agree, though, is that you must have a Reiki Attunement before you can use the symbols.

This gets your body used to the Reiki energy and prepares you to use the Life Force Energy. Depending on the symbols that the Reiki Master uses on you, the effect may be permanent or temporary.

The question that most have, though, is, that if Reiki is something that can only be taught and enabled by a Master, then how did it get started?

With study and dedication, it may just be possible for you to learn to attune yourself without the help of a Reiki Master.

However, if you choose to, you may be able to pay for an attunement anyway. In fact there are even places to learn to do your own Reiki attunement online so that you have no need of classes.

Some of the most common Reiki symbols are the following:

a) Cho Ku Ray - Power

This symbol increases the Reiki power that you are using, bringing energy from the rest of the world around you to focus it exactly where you want it.

b) Sei Hei Ki - Mental or Emotional

This symbol indicates the divine within us, making humanity and God into one. It is used to create an emotional release after a build up in the recipient of the energy, and can be used to focus to heal and calm the mind.

c) Hon Sha Ze Sho Nen - Distance

This symbol indicates that the God in the sender greets the God in the recipient. It is used to promote peace and enlightenment, and is used to send Reiki healing energy across a distance to perform distance healing.

There are twelve basic hand positions for self-treatment with Reiki. The first is with both hands over your face and eyes, with your nose and mouth exposed. Your palms should be cupping your eyes, no pressure needed. The second is with both hands on your head just behind or above your ears. Your fingertips should meet at the crown of your head.

The third is with both hands resting behind your head. One should rest just above the nape of your neck, and the other should be just above it. The fourth is with your chin resting in the palms of your hands. Your fingers should stretch along your jaw line.

The fifth is with one hand around your throat gently, with your thumb to one side and your fingers to the other. Your other hand should rest on your chest just below your collarbone. The sixth is with your hands resting on your upper rib cage. For women, this means that your hands are placed just below the breasts.

The seventh is with your fingertips touching above your solar plexus, your hands to each side. The eighth is with one hand along each side of your pelvic bone. Your fingers should be touching.

The ninth is with your hands on the backs of your shoulders or on your shoulder blades. You should be reaching up and over your shoulders to get in this position. The tenth is with your hands meeting at the fingertips in the center of your back.

The eleventh is with your fingertips meeting at your low back. The twelfth is with your hands resting in the sacral region, meeting about at your tailbone.

When you lay your hands on one of these healing energy points, you are meant to draw energy through the channels of your body rather than trying to push your energy out through your hands or otherwise draw from some parts of your body to the others. Instead, look to draw the energy through the channels in your body from the world around you.

Christianity is based on Persian Philosophy of Mithraism!

The complete philosophy, doctrine and base for Christianity has been borrowed from the ancient Persian Philosophy of Mithraism (Mithraism.) According to Persian Mythology, Goddess Anahita is the Immaculate Virgin Mother of Goddess Mitra. Christians practically borrowed their doctrine and Holy Scriptures from Ancient Persian Mythology. Christian Church and scholars only changed the Divine Persian names to Christian names! They named "Anahita" as their Virgin Mary and they named "Mitra" as their Jesus Christ! The bases for the Christian Doctrine and writings in many versions of Bible, written by Christian Scholars and Saints has been practically borrowed (Stolen) material from Persian Mythology and Mithraism! This is documented history. So basically Christianity stole its doctrine from Persians. Later on Mohammed (Islam) stole his complete doctrine from bits and pieces of Torah (Jewish Holy Book) and Bible (Christian Holy Book)! For instance, various prayers, fasting, Allowed and Forbidden foods, scriptures, holy events, biblical history and other documents in Islam were all stolen from Judaism and Christianity. Now if you search for all the roots of everything, even mono thesis, it comes from Persian Doctrines of Mithraism, Vedaiism and Zoroastrianism. It all goes back to Persian Philosophies! Why do majority of public not know all this? Because the public has no clue about history. They do not even know what they had for supper a few nights ago! Yes my friends, It all goes back to Persian Philosophies!

- * Mitra was the daughter of the virgin Goddess Anahita.
- * Jesus was the son of the virgin mother Mary!
- * Mitra was born on December 25th.
- * Jesus was born on December 25th.
- * Mithraists were having bread and wine at Mithraist Temples.
- * Christians are having bread and wine at communions in churches!

And many more similarities...

So what are they? Coincidences or thieveries? The whole Bible is copy/pasted!

Does direct copy/pasting of the Persian Philosophy of Mithraism sounds familiar?

Christianity is not a religion, yet it is a storybook made for adults. Even this storybook is not an original, yet a fake one, copied from the Persian Philosophy of Mithraism!

After reading this research, it will be all clear to you of how primarily Christianity and then Islam copy/pasted much of their holy books from ancient Persian philosophies of Mithraism, Vedaiism and Zoroastrianism!

Persian Deities

Persian God Atar

By F Mayv Q Amaia

Atar is the Persian, or old Iranian, god of fire and of purity. He is said to be a bestower of wisdom as well as a bringer of comfort to mankind. Atar is a son of Ahura Mazda, the Wise Lord and supreme king of the Persian pantheon who created the heavens and the earth.

Ahura Mazda, or Ormazd, as he is also known, is himself a son of Zurvan Akarana.

Zurvan, while his consort was pregnant, declared that their first-born son would reign as king.

Ahriman, Ahura Mazda's twin brother, then ripped open their mother's womb, thus ensuring that he (Ahriman) would be born first.

Zurvan subsequently decided that Ahriman would rule for nine thousand years, after which Ahura Mazda would reign.

Atar was born to thwart his uncle Ahriman's wicked plans, and particularly to battle Azi Dahaka, one of Ahriman's creations.

This destroyer of life and bringer of anguish and pain is usually depicted as a snake-like being or dragon with three heads, upon whose body crawl poisonous scorpions and many lizards. This image of an evil snake may have provided an inspiration for the tempter of Eve in the Biblical Garden of Eden.

Ahriman, as ruler of the darkness where evil souls go after their deaths, may be part of the basis for the devil, or Satan, of Christianity, much as the Vedic/Persian saviour god Mithras is the basis for Jesus.

When Ahura Mazda created the heavens, Azi Dahaka sprang up into the sky. To oppose or rival the stars Ahura Mazda had made to illuminate the night, Azi Dahaka formed the planets.

Atar defends the world from evil, and so battled the dragon and bound him with chains at the top of a mountain called Dermawend.

It is foretold in Persian mythology that there will be a final battle between the Spenta Mainyu, or gods of life and goodness, led by Ahura Mazda, and the Angra Mainyu, or gods of disease and death, led by Ahriman in a bid to depose his brother and destroy the universe and all creation.

Prior to, or during, this battle, Azi Dahaka will break free of his binding fetters and join the fray. He will, however, be defeated by Atar once again at the end of time, or fraso kereti. The dragon will then perish in the river of fire called Ayohsust.

A final note on Persian mythology:

Much of what we now know of Persian gods and mythology comes from the religious texts of Zarathustra, such as the Avesta and later texts.

While the original Avesta dated back to the period of 1400 to 1200 BCE, it was destroyed by Alexander the Great when he invaded Persia. The version of the Avesta we know today was written in the 13th and 14th centuries CE. Sadly, this contains but a fragment of the original text.

Poetry Place

The Lotus by Solar Spells

Float on waters of the calm,
Attracting praise with your charm;
Upwards towards the light you strive,
Fairy faith you come alive.

Petals spreading in the air,
Floating free without a care;
Gently with a ray of peace,
Swimming with the ducks and geese.

Reminding of mindfulness,
Set within your righteousness;
Concentrating meditation,
Mystical contemplation.

From the sun, from the moon,
Lotus flower blossoms soon;
Yogis, Mystics, Buddhas too,
Only speak good things of you.

Many coloured shining hues,
Colours of the rainbow choose;
Thank you for blessing us,
Like the jewel within the lotus.

THE ORDER OF WEB WEAVERS CRYSTAL WEB MAPPING PROJECT

The Order of the Web Weavers has been working diligently on mapping the Crystal Web. If any of you have a crystal that you have added or removed from the Crystal Web contact us to ensure are records up to date and accurate.

The information we need in order to best catalogue your crystal/s is the following. Your Craft Name and E-mail Address along with your City, State, Country, Latitude, and Longitude. Sent to the following e-mail address: wwcw@correllianorders.info

Please include the above information, if you have removed your crystal from the Crystal Web along with 'Remove' in the subject line. If you have added several crystals then we would need a separate entry for each crystal, unless they are located together. If they are located together then please include how many crystals are at that location.

We are excited about this project and hope that you will be too. Once the crystals have been properly catalogued we can then begin placing them on the map program. This will give us a good visualization on the Crystal Web. Thank you in advance for your participation in this wonderful project.

Bright Blessings,
The Order of Web Weavers

THE ORDER OF WORLD WALKERS

This Correllian order is headed by the Rev. Krystel High Correll and she is offering training for those who wish to join the order. The training consists of twelve lessons, one a month, for a year, offered through e-mail.

The purpose of this order is to fulfill the deeper purposes of the Correllian Tradition--advanced psychic and spiritual work, primarily conducted on multi-dimensional levels. This work includes:

Learning to connect and work with your spirit guides. Conscious dying and conscious incarnation. Advanced dream work. Exploring the known boundaries of the multi-dimensional universe, then conducting independent work to go beyond those boundaries. The study of time and advanced work within it. Soul rescue (helping those who are not aware they have died, or are not willing to cross over). Mediumship (being a voice for the so-called dead, visiting the land of the dead and communicating with them, and building a pathway between the living and the dead). Healing, both personal and of our Earth.

These purposes are divided among five houses that consist of the members who are dedicated to the work of the House.

The Order of World Walkers is a working order. The training is only the beginning. Each of the houses offer work that can be done for the rest of your life, if you choose to do it.

I believe that everyone who chooses to become a member of the order chose this before coming into this life time to continue work begun in other lives.

For more in-depth information, including the cost of the lessons, contact me at krystelneuman@yahoo.com

May You Blessed Be
Krystel
