Pagan Calendar September 27 – October 3

September 27. Moon Festival. On this date, an annual ceremony takes place in China to honor the Moon Hare and to give thanks to the gods for a harvest of abundance. The rites associated with the Moon Festival are always performed by women as the Moon represents yin, the female cosmic element.

September 28. On this date in ancient Athens, an annual Thesmophoria festival was celebrated in honor of the Greek goddess Demeter. The festival lasted until the third day of October.

September 29. Michaelmas. According to English folklore, it was on this day that the Devil fell from Heaven, landed on a blackberry bush, and cursed the berries. Therefore, it is unlucky to pick blackberries after Michaelmas. In parts of Scotland, special Michaelmas cakes are eaten by the superstitious on this day to ward off all evil and misfortune in the coming year.

September 30. On this date, the annual Meditrinalia festival was celebrated in the city of Rome in honor of the goddess Meditrina, a deity who presided over medicines and the arts of healing.

In ancient Greece, the Epitaphia was held once a year on this date to honor the souls of the warriors slain to battle.

Legends and Lore for October

October, the tenth month of the current Gregorian calendar and the second month of Autumn's rule, derives its name from octo, the Latin word meaning "eight," as October was the eighth month of the old Roman calendar. The traditional birthstone amulets of October are opal, rose sapphire, and tourmaline; and the calendula is the month's traditional flower.

October is shared by the astrological signs of Libra the Scales (or Balance) and Scorpio the Scorpion, and is sacred to the following Pagan deities: Cernunnos, Hecate, the Morrigan, Osiris, and the Wiccan Goddess in Her dark aspect as the Crone. During the month of October, the Great Solar Wheel of the Year is turned to Halloween (Samhain Eve), one of the four Grand Sabbats celebrated each year by Wiccans and modern Witches throughout the world.

October 1. On this date (approximately), hundreds of thousands of Muslims make a pilgrimage to the city of Mecca to kiss and touch the Black Stone (one of the original building blocks of a veiled shrine) and to worship their god Allah. They then drink some water from the nearby sacred Well of Ishmael, and journey up into the hills of Safa and Marwa to recite prayers.

October 2. Guiding Spirits Day. On this day, light a white candle on your altar and give thanks to your spirit guide (or guides) for guarding over you and guiding you through your spiritual development. If you wish to communicate with or meet your spirit guide, use a Ouija board or, through prayer, invite the spirit guide to come to you in a dream or in a trance.

October 3. On this date (approximately), a Cementation and Propitiation Festival was once celebrated by the Native American tribe of the Cherokee. The purpose of the festival was to remove the barriers between the Cherokee people and the deities they worshiped.

The Principle of Spiritual Energy Generation

by Owen Waters

As people become more interested in spirituality and how it can change the world and improve their lives, the understanding of spiritual energy becomes a key factor in their growth and development. This article explains the nature of spiritual energy and how it can be used in, for example, distance healing, world healing, or simply for enhancing meditation.

Like the principle of electrical generation, the principle of spiritual energy generation shows how a specific type of energy flow may be generated. In the case of electrical generation, a flow of electricity is created in a certain direction. In the case of spiritual energy generation, a flow of spiritual energy is created in a certain direction.

Spiritual energy is etheric energy conditioned by spiritual intent.

Etheric energy is a primary energy of the universe, while electric energy is a secondary, more dense form of energy. Etheric energy is also known by many other names around the world, including life energy, vital energy, prana, bioenergy, orgone, ki, chi or qi.

For the last 5,000 years in traditional Chinese medicine, the vital pathways of etheric energy in the human body have been balanced using the healing modality of acupuncture. More recently, the electrical genius Nikola Tesla produced vast quantities of etheric energy using, apparently, very high frequency electricity as a method of attracting etheric energy out of the atmosphere. Because its behavior is very different from regular electricity, he referred to it as 'cold electricity.'

Just as the atmosphere is filled with electrons, ready to be channeled through an electric generator, so is it also filled with etheric energy. All energies are supplied and replenished by the Sun, including the mental energy that forms the global mind atmosphere or mind belt around the Earth.

The mind belt is conditioned by the thoughts and emotions of humankind. Each person constantly attracts mental energy, conditions it by their thoughts and actions, and passes it back into the mind belt. Every one of us affects everyone else. A spiritual act – one which expresses unconditional love – by anyone anywhere upon the planet improves the mind belt of the whole planet. A destructive act by anyone anywhere upon the planet degrades the mind belt of the whole planet.

Etheric energy is a more subtle energy than electricity, and a more dense energy than mental energy. However, because of its vibrational proximity to mental energy, it responds readily to applied mental pressure.

The human mind can, through visualization and intent, attract etheric energy, condition it in any way desired, and then direct it towards any desired objective.

In 1831, at the dawn of the electrical era, visionary scientist Michael Faraday published his discovery of the law of electromagnetic induction. This law, or principle, states that an electric current will be induced in a conductor when it is moved across a magnetic field.

At the time, it seemed like the strangest thing in the world. Moving a conductor forward across a magnetic field would invoke an electrical current sideways in the conductor. This discovery showed that, with electrical generation, nothing happened in the same direction as anything else. All three directions in space were involved – a metal conductor that ran forward through a magnetic field that ran vertically, producing an electric current that ran sideways. It was truly awe-inspiring to those who saw this phenomenon clearly demonstrated for the first time. This discovery then opened the door to the generation of electricity in large quantities. As the idea was developed, electricity went on to replace steam as the working medium of the Industrial Revolution, and later gave birth to the field of electronics.

Today, the new frontier of discovery is in spiritual energy. Realizing that spiritual energy exists, and understanding how it can be attracted, conditioned and transferred, opens up a whole new realm of possibilities in humankind's use of all types of God-given energies.

Both electric energy and etheric energy respond to pressure. In the case of electrical energy, voltage is the measure of electrical pressure. The more voltage you have available, the more electrical energy you can move through a circuit. In the case of etheric energy, the application of pressure via mental intent is similar to the principle of voltage. The more intense your intent, the more etheric energy you will move toward your intended objective. For example, if you are sending distance healing energy to a friend at another location, the stronger the pressure of your applied intent, the more healing energy you can generate and transfer to them.

There is a key difference between plain, unconditioned, etheric energy and spiritual energy. Spiritual energy is etheric energy conditioned by spiritual intent. In order to achieve the spiritual conditioning of etheric energy and transform it into spiritual energy, the individual's consciousness has to first rise into the frequency range of spiritual consciousness.

In the human heart lies the doorway from material consciousness to spiritual consciousness. As explained in my book, "The Shift: The Revolution in Human Consciousness," there are two levels of heart-centered consciousness, and they resonate at different frequencies. It's a yin and yang situation. The lower, passive level is heartfelt consciousness, where the person adjusts to the experience of unconditional love. The higher, active level is heart-powered consciousness, where the person puts that heart-centered awareness into action.

The doorway to spiritual consciousness is between those two levels of heart-centered awareness. There are two major tiers of human consciousness, each tier containing six stages. The basic tier has a materialistic focus and ranges from the earliest historical expression of human consciousness, all the way through the evolution of empowered action and achievement, and into heartfelt awareness. In this heartfelt state of consciousness, humans shift from supporting, for example, mindless commercial expansion into an awareness where the environment becomes an important issue.

Humans then progress into the second tier of six stages of human evolution. This is the spiritual tier and, by stepping into it, humankind today is making a quantum leap in awareness. This is the essential nature of The Shift that is transforming today's society. As each human spends more and more time in the spiritual tier, they engage in more and more heart-powered action, changing the world through applied unconditional love.

The average person in Western society today is still in the commercial expansion stage of consciousness, and yet with one foot very much planted in the heartfelt consciousness of ecology issues. Meanwhile, today's pioneers of The Shift are spending more and more time venturing into the spiritual tier of consciousness and, as a result, expanding the awareness of all of humanity.

In conclusion:

The generation of spiritual energy is carried out through spiritual intent applied to the universal supply of etheric energy. The spiritual tier of consciousness begins with heart-powered consciousness and is entered through the doorway of the heart. The degree of intent determines the amount of etheric energy that will be conditioned into spiritual energy. Intent is also used to direct the spiritual energy towards the desired objective, such as distance

healing, world healing, or simply for enhancing meditation.

In summary:

The Principle of Spiritual Energy Generation states that spiritual energy is generated by the mental direction of etheric energy, conditioned by spiritual intent.

Spell of the Week

BOOK OF SHADOWS BLESSING

Preparation: At the time of the Full Moon, take your Book of Shadows (one that hasn't been written in yet) and some incense (pennyroyal, anise or rue) outside.

Ritual: Under the light of the Full Moon, draw a pentagram on the first page and under this write the following information: date, time, place, your magical name (and sigil if you have one),

the moon's phase and any other info you feel is important. Hold the book up to the Moon and say:

"Here as the Full Moon shines upon me,
Bless this Book I've made tonight.
I humbly ask this of thee,
Underneath your most sacred light."

BLESSING OF THE BOOK OF SHADOWS

Hearken as the witch's word calls to all, a gulf to ford. Bridge the vast realities.
An it harm none, do as ye please.

Elements, protect and guard this book, from wandering eyes and prying looks.

Fill it with thine ancient powers, in this right and ready hour.

Powers of the North, the East below, help me to live, to learn, to grow.

Lend your strength and stability, to practice the Craft and with love be free.

Powers of East, the wind, the Sky, watch over these pages with thine eye.

Your wisdom and knowledge, for these I do ask,

that this book be worthy of the Craft and its task.

Powers of South, Fire, and hearth, help these

Shadows to prove their worth. Infuse them with all your healing and passion,
so only good comes from the work that is fashioned.

Powers of West, the Water and sea, change and growth are granted by thee.

Bless these pages with all that you know, that righteous readers may learn and grow.

And to the unschooled eye that see,

confusing words and sophistry, lead them from these sacred pages,

and bless their passage through the ages.

For free will of all, and harm none, as I have willed it, it is now done.

So mote it be!

Creative Visualization

Shakti Gawain

Whatever you ardently desire, sincerely believe in, vividly imagine, and enthusiastically act upon,
Must inevitably come to pass.

What is Creative Visualization?

Creative visualization is the technique of using your imagination to create what you want in your life. In the past many of us have used our power of creative visualization in a relatively unconscious way. Because of our own deep-seated negative concepts about life, we have automatically and unconsciously expected and imagined lack, limitation, difficulties, and problems to be our lot in life.

It should be noted that this technique cannot be used to "control" the behavior of others or cause them to do something against their will. Whatever you try to create for another will always boomerang back to you. That includes both loving, helpful, or healing actions and negative, destructive ones.

To use creative visualization it is not necessary to believe in any metaphysical or spiritual ideas. It is not necessary to "have faith" in any power but yourself. Creative visualization is magic in the truest and highest meaning of the word. Magic: Understanding and aligning yourself with the natural principles that govern the workings of our universe, and learning to use these principles in the most conscious and creative way.

How Creative Visualization Works

In order to understand how Creative Visualization works, it's useful to look at several interrelated principles:

The physical universe is energy

Energy is magnetic (like attracts like)

Form (physical energy) follows idea (mental energy)

Whatever you put out to the universe will be reflected back to you

Four Basic Steps for Effective Creative Visualization

Set your goal

Create a clear idea or picture

Focus on it often

Give it positive energy

Continue to work with this process until you achieve your goal, or no longer have the desire to do so.

Remember that goals often change before they are realized. If you lose interest it may mean that it's time for a new look at what you want.

Affirmations

Affirmations are one of the most important elements of creative visualization. An affirmation is a strong, positive statement that something is already so. It is a way of "making firm" that which you are imaging. The practice of doing affirmations allows us to begin replacing some of our stale, worn out, or negative mind chatter with more positive ideas and concepts. It is a powerful technique, one that can in a short time completely transform our attitudes and expectations about life, and thereby totally change what we create for ourselves.

An affirmation can be any positive statement:

Everything I need is already within me.

The universe is unfolding perfectly.

All things are now working together for good in my life.

I love and appreciate myself.

Here are some important things to remember:

Always phrase affirmations in the present tense.

Always phrase affirmations in the most positive way you can.

In general, the shorter and simpler the better.

Always use affirmations that feel totally right for you.

Always remember that you are creating something new, not trying to redo or change what already exists, which would create conflict. Affirmations are not meant to contradict or try to change your feelings or emotions, even the so-called "negative" ones. Temporarily suspend your doubts and hesitations, and put your full mental and emotional energy into your affirmations.

When you are coming out of the empty, grasping, manipulative condition, the first and foremost lesson to be learned is to just let go. You must relax, stop struggling, stop trying so hard, stop manipulating things and people to try to get what you want and need. In fact, just stop doing so much and have an experience of just being for awhile.

When you do this, you suddenly discover that you're really perfectly okay, just letting yourself be, and letting the world be. You begin to want to focus your energy toward the highest and most fulfilling goals that are real for you at any given moment.

Being, Doing, and Having

Often people try to live their lives backwards: They try to have more things in order to do more of what they want, so that they will be happier. The way it actually works is the reverse. You must first be who you really are, then do what you need to do in order to have what you want.

Three Necessary Elements

Desire - a clear, strong sense of purpose

Belief - that it can exist, and that it can exist for you

Acceptance - are you willing to have it completely (pro and con)?

Going With the Flow

The only effective way to use creative visualization is "going with the flow." That means that you don't have to "effort" to get where you want to go; you simply put it out clearly to the universe where you would like to go, and then patiently and harmoniously follow the flow of the river of life until it takes you there. Going with the flow means holding onto your goals lightly (even though they may seem very important) and being willing to change them if something better comes along. Going with the flow is the balance between keeping your destination clearly in mind, and yet also enjoying all the beautiful scenes along the way, and even being willing to change your destination if life starts carrying you in a better direction. The only successful manifestation is one which brings about a change or growth in consciousness; that is, it has manifested God/dess, or revealed it more fully, as well as having manifested a form...

Accepting Your Good

In order to use creative visualization to create what you want in life, you must be willing and able to accept the best that life has to offer you - your "good." Many of us have difficulty accepting the possibility of having what we want in life. This usually stems from some basic feelings of unworthiness which we took on at a very early age. Affirmations and creative visualization are a wonderful way of creating a more positive and loving self-image. First, it lets you accept and love yourself as you are. Second, it lets you start creating yourself as you want to be.

Prosperity Programming

A very important part of the whole creative visualization process is prosperity programming. This means having the understanding, or consciously taking the point of view, that the universe is totally abundant...it is a cornucopia of everything that your heart could ever desire, both on the material plane and on emotional, mental, and spiritual planes as well. One of the most common causes of failing to get what you want is "scarcity programming." The truth about this earth is that it is an infinitely good, beautiful, nourishing place to be. The only "evil" comes from lack of understanding of this truth. Evil (ignorance) is like a shadow - it has no real substance of its own, it is simple a lack of light. You cannot cause a shadow to disappear by trying to fight it - you must shine a light on it. Unless you can create a context that the world is a good place to be that can potentially work for everyone, you will experience difficulty in creating what you want in your personal life.

Outflowing

Another key principle is that of giving, or "outflowing." Once we begin to accept the goodness of the universe, we naturally want to share it as well, realizing that as we give out of our energy, we make

space for more to flow into us. When through insecurity we try to hold onto what we have, we begin to cut off this wonderful flow of energy. Energy takes many forms, such as love, affection, appreciation and recognition, material possessions, money, friendship, etc., and the principles apply equally to all these forms.

A Simple Exercise in Creative Visualization

First, think of something you would like. It might be an object you would like to have, an event you would like to happen, a situation in which you'd like to find yourself, or some circumstance in your life you'd like to improve.

Get in a comfortable position, either sitting or lying down, in a quiet place where you won't be disturbed. Relax your body completely. Breathe slowly and deeply. Count down slowly from 10 to 1, feeling yourself getting more deeply relaxed with each count. When you feel deeply relaxed, start to imagine the thing you want exactly as you would like it. You may imagine what people are saying, or any details that make it more real to you. You may take a relatively short time or quite a few minutes to imagine this - whatever feels best for you. It should be a thoroughly enjoyable experience, like a child daydreaming.

Now keeping the idea or image still in your mind, mentally make some very positive, affirmative statement about it. Always end your visualization with a firm statement to yourself:

This, or something better, now manifests for me in totally satisfying and harmonious ways, for the highest good of all concerned. This leaves room for something different and even better than you originally envisioned to happen, and serves as a reminder to you that this process only functions for the mutual benefit of all. If doubts or contradictory thoughts arise, don't resist them or try to prevent them. This will tend to give them a power they don't otherwise have. Just let them flow through your consciousness and return to your positive statements and images.

It's Important to Relax

It's important to relax deeply when you are first learning to use creative visualization. When your body and mind are deeply relaxed, your brain wave pattern actually changes. This deeper, slower level is commonly called alpha level, which has been found to be a very healthful state of consciousness. It has also been found to be far more effective than the more active beta level in creating real changes in the so-called objective world, through the use of visualization. It is especially good to do creative visualization at night just before sleeping, or in the morning just after awakening, because at those times the mind and body are often already deeply relaxed and receptive. In addition, a short period of relaxation and creative visualization done at mid-day will relax and renew you, and cause your day to flow more smoothly.

Discovering Our Higher Purpose

A basic need of all human beings is to make a positive contribution to the world and to our fellow beings, as well as to improve and enjoy our personal lives. We all have a great deal to offer the world and to each other, each in our own special and unique way. To a great degree, our own personal sense of well being is a function of how much we are expressing this.

We each have a significant contribution to make in this lifetime. I call this contribution our higher purpose. It always involves being yourself totally, completely, and naturally, and doing something or many things that you genuinely love to do, and that come easily to you. We all know in our hearts what our higher purpose is, but we often do not consciously acknowledge it, even to ourselves. In fact, most people seem to go to great lengths to hide it from themselves and from the world. They fear and seek to avoid the power, responsibility, and light that comes with acknowledging and expressing their true purpose in life.

You will find in using creative visualization that your ability to manifest will work to the degree that you are in alignment with your higher purpose. If you try to manifest something and it doesn't seem to work, it may not be appropriate to the underlying pattern and meaning of your life. Be patient and keep tuning into your inner guidance. In retrospect you will see that everything is unfolding perfectly.

Poetry Place

Who's A Witch?

Nary a man a Witch can be
nor Witch a Wizard, don't you see?
For t'was thus ordained above,
this great natural law called Love
that from man to woman is the flow
and as such, always has been so.
Into whose hands are babies born
and who gathers the eggs on frosty morn?
T'is she who knows the herb that cures.
and guess who, that trusty cauldron stirs.
Comes now the Woman of the Moon;
it's Her planter's orb in June.
By wind and fire, rain and earth,
all God's creatures know Her worth.
All that live are born in strife,
But She's the One who nurtures life.
Thank you Goddess for the Witches
By just their being, our life enriches.
Think not there's something I've forgotten;
it's the fact that we 're all begotten
You see, from that piece of Adam's rib
comes the hand that rocks the crib.
Surely there's one thing now we know.
"Move over Wizard; it's Her show."

THE ORDER OF WEB WEAVERS CRYSTAL WEB MAPPING PROJECT

The Order of the Web Weavers has been working diligently on mapping the Crystal Web. If any of you have a crystal that you have added or removed from the Crystal Web contact us to ensure are records up to date and accurate.

The information we need in order to best catalogue your crystal/s is the following. Your Craft Name and E-mail Address along with your City, State, Country, Latitude, and Longitude. Sent to the following e-mail address: wwcw@correllianorders.info

Please include the above information, if you have removed your crystal from the Crystal Web along with 'Remove' in the subject line. If you have added several crystals then we would need a separate entry for each crystal, unless they are located together. If they are located together then please include how many crystals are at that location.

We are excited about this project and hope that you will be too. Once the crystals have been properly catalogued we can then begin placing them on the map program. This will give us a good visualization on the Crystal Web. Thank you in advance for your participation in this wonderful project.

Bright Blessings,
The Order of Web Weavers

THE ORDER OF WORLD WALKERS

This Correllian order is headed by the Rev. Krystel High Correll and she is offering training for those who wish to join the order. The training consists of twelve lessons, one a month, for a year, offered through e-mail.

The purpose of this order is to fulfill the deeper purposes of the Correllian Tradition--advanced psychic and spiritual work, primarily conducted on multi-dimensional levels. This work includes:

Learning to connect and work with your spirit guides. Conscious dying and conscious incarnation. Advanced dream work. Exploring the known boundaries of the multi-dimensional universe, then conducting independent work to go beyond those boundaries. The study of time and advanced work within it. Soul rescue (helping those who are not aware they have died, or are not willing to cross over). Mediumship (being a voice for the so-called dead, visiting the land of the dead and communicating with them, and building a pathway between the living and the dead). Healing, both personal and of our Earth.

These purposes are divided among five houses that consist of the members who are dedicated to the work of the House.

The Order of World Walkers is a working order. The training is only the beginning. Each of the houses offer work that can be done for the rest of your life, if you choose to do it.

I believe that everyone who chooses to become a member of the order chose this before coming into this life time to continue work begun in other lives.

For more in-depth information, including the cost of the lessons, contact me at krystelneuman@yahoo.com

May You Blessed Be
Krystel

Order of Peace Weavers

The Order of Peace Weavers was created to provide members of the Correllian Tradition with the means of gathering together to collectively promote the weaving of peace into the fabric of society through meditation, prayer, Reiki, visualization, spellworking, ritual, creative writing, intentional art and music, and other positive energy work and lightwork, with harm to none, and for the highest good of all concerned.

The motto of the Order of Peace Weavers is: "Be Peace, Live Peace, Send Love, Weave Peace." We hold a monthly 15 minute group peace meditation on the first Wednesday of every month and would love to have more join us to promote peace.

The Order of Peace Weavers is a chartered order of the Correllian Tradition. Membership is by invitation or application and is open to Inner and Outer Court members.

For more information, please find us at <http://groups.yahoo.com/group/orderofpeaceweavers/> or contact moonraven3x3@yahoo.com.
