Animal Totems

Rev. Mehitabel

Wisdom of the animal spirits

<http://www.animalspirits.com/index1.html>

Jaguar's Wisdom Includes:

- Seeing the roads within chaos
- Understanding the patterns of chaos
- Moving without fear in the darkness
- Facilitating soul work
- Empowering oneself
- Moving in unknown places
- Shapeshifter
- Psychic sight

Orca's Wisdom Includes:

- Creator of the Cosmos
- Having the ability to convert raw matter into stars, planets, etc.
- Freeing the soul from the physical body
- Controlling rainfall on Earth
- Using the vibrational energy of song to heal
- Assisting humans in finding their soul's song
- Soul memory
- Seeing the unseen
- Teaching the ability to seal soul fissures and energy leaks

According to coastal Indians, Orca was created by the hunter who carved a "blackfish" out of yellow cedar and commanded it to kill his wicked in-laws. Orca tore the men to bits and returned to the Tlingit man, Natsalane, who then ordered the sleek animals never again to prey on humans. And, to this day, Orca, the top predator of the sea, doesn't eat people. Indeed, the Tlingit people of southeast Alaska consider Orca a custodian of the sea.

Black Jaguar's Wisdom Includes:

- Keeper of the circular time continuum
- Gatekeeper to the Unknowable
- All wisdom listed above for Jaguar

According to Mayan beliefs, the journey of the sun across the sky and the darkness of night stood for the eternal journey of human consciousness and its transformations. The sun at midday was compared to the Eagle, flying high in the sky. Then it plunges below the horizon, just as we plunge into the dark where we face our spiritual challenges and are transformed. The hidden sun was said to be Jaguar, whose spotted skin symbolized the stars glittering in the night sky. Thus, it was called the "Jaguar Sun." Jaguar is the earth father. As earth father, he presides over the sacred power in the earth and the animals who live upon it. The force that lives within the mountains, which gives them their volcanic and transformative power, is the same underworld source of power and energy as the Jaguar Sun. The Mayan word for Jaguar is IX (pronounced eesh).

Meditation & Magic

Pieter Heydenrych

Whilst meditation remains an extraordinary tool with substantial life value on it's own, it would appear that for centuries meditation has been practiced by Wicca practitioners as a magical tool, and usually with a specific purpose in mind.

Focussing on the specific aspects of magic it may well be of interest to address a few magical forms directly, and specifically the application of meditation in these forms of magic:

Ritual magic

Whilst the use of meditation is by no means a prerequisite for a successful ritual, this tends to add a number of very interesting and positive side affects including :
The preparation meditation is used to establish a clean practitioner mind slate from where the ritual can be performed, which aids in elimination of outside thoughts interfering with the ritual, and in so enhances the success of the ritual.

This is also useful in establishing focus on the intent of the ritual. This offers a unique opportunity for the practitioner to establish a directed focus, before even starting the ritual.

Of course a shortcoming with most group rituals remain a split up focus, as every practitioner usually ends up focusing on his / her own ideas of what the results of the ritual should be. Of course utilization of group guided meditation as a ritual preparation tool could increase the agreed focus of the group, and in so doing cause some spectacular results, as the intent of the ritual is more successfully defined and projected by all participants in the ritual.

Spell casting

Of course similar principles would apply as with ritual magic, and all of the above mentioned points are points which could be applied for spell casting.

There is however at least one added dimension in which meditation could be used, and that is for the actual casting of the spell in the meditation, using visualization. Essentially the practitioner can cast the spell whilst in meditation visualizing the desired results. (be careful though this is only recommended for advanced practitioners of both meditation and magic).

Casting of group spells it is very important that the whole group has the same objective and intent when casting of the spell takes place, so it is usually better to use guided meditations in group castings.

Astral projection

Whilst the meditation does not in this instance form and intrinsic part of the magic practice, this is more often than not used as a launch platform from where the astral plain is entered into. Essentially used as a basis to force the practitioner into the astral plain, from where powerful magic is possible.

Of course from a preparation perspective meditation could be used to create an astral setup, which creates in the astral plain conditions conducive to successful outcome.

Of interest in this instance would also be the use of meditation to communicate with beings in the astral plain, which often include spirit guides and angles.

Spiritualist channelling

Whilst meditation is not essential to successfully channelling spirit entities, this is used very successfully in constructing séances which are focused on specific entities, or in search of specific knowledge.

Mysticism

This is one form of magic practice where meditation does in fact form an intrinsic part of the practice. Meditation has for the longest of time been used in the search for knowledge and inner enlightenment. In this form meditation is used extensively in this spiritual quest.

Reiki

Yes, Reiki is also a form of magic, and in Reiki meditation is used extensively for focussing of energy, both in solitary and group context. Keeping in mind that Reiki is a rather direct form of energy manipulation, meditation is a powerful ally in energizing intent.

Whilst this does not even resemble a complete list of forms of magical practice where meditation offers benefit, and is used extensively, this does demonstrate the versatile potential of meditation. This of course not counting the non magical practice of meditation, which is simply focussed on simple life enhancement and self improvement.

In fact there are so many beneficial uses for meditation that it would be impossible to list them all. Of course in magic meditation plays a rather important role, and any practitioner of magic would do well learning at least some form of meditation, if not already in use.....

Quote & Thought of the Day

Rev. Nehal

Quote of the Day:

*What good is a man's knowledge unless it prompts him to
Prevent the pain of others as if it were his own pain?*

Any actions which a man knows would harm himself

He should not inflict on others.

*The supreme principle is this: Never knowingly
Harm anyone at any time in any way.*

Tirukkural 32: 315-317

Thought of the day:

Positive advantage

Put your energy where it will do the most good. Put your energy into those things you can do right now to make a difference.

Worry will get you nowhere and will drain the value out of your moments. Achieving the status of victim is not an achievement worth having.

Instead, take the challenges and use them to positive advantage. With the very real power of your thoughts, bend your life's energy so that it flows ever forward.

There is enough time and there are plenty of resources for creating true greatness on your own terms. Fully feel the possibilities and bring them steadily to life.

Make thankful use of what you have when you have it. Focus what is, through your imagination, into the best of what you know can be.

See the immense value of who you are and what you have right now. Transform that value into a living expression now, and it will always be with you.

Symbols and Codes: Why We Use Them and What They Mean

George E. Lockett

Those symbols and codes we take for granted are things like the alphabet we use in our language. Languages and their associated symbols are a living thing.

Nowhere is this more apparent than when watching our children sending text messages to each other on their mobile phones. They have created their own language, which is unique and constantly changing.

They may use different symbols in different orders when talking with a certain friend and change the order and language with another. I suppose this is a little like local dialect in different parts of the country.

The main thing to be aware of is the relationship between the symbols on the surface of language and their meaning and effects on our emotions and feelings. Also, the message can be sent out on many levels.

As we write we send a telepathic message, which is received by the other person instantly. The letter or email will follow later. It is this telepathic message that pre-programmes the other person's emotions and feeling to interpret the message in a certain way and give it its truth.

Symbols are very powerful: as the old saying goes, a picture says a thousand words. It is the intricate matrix of emotions and feeling that is enlivened by a symbol and connects it to your Inner Self. This connection highlights your own truth that you receive from the symbol used.

Last night while I was sleeping I became aware I was receiving lots of symbols. I was quietly watching as thousands of visual images seemed to be being downloaded into my consciousness. Each image was only visible for about a tenth of a second before my awareness moved on to the next image.

I have yet to understand the reason for this download. It appeared to consist mainly of the symbols used by the ancient Egyptians in their wall paintings of animals and various headdresses.

The point being that it is not the symbol that is important; it is its inner meaning for us as an individual. We all have an inner knowledge and belief system which interprets these symbols. This gives meaning and understanding but it is our inner feelings and emotions which give us our truth.

It is this inner connection to Self – that Inner Universal Life Force – that is the seat of our true Inner Knowledge. Our feeling and emotions join the symbols on the surface of life to the inner depth of knowledge which creates our truth and understanding.

It is as though we compare even the smallest symbol to our Inner Universal Knowledge and, through feelings and emotions, make judgements and decisions which give the symbol meaning for us.

The awareness within and our connection to Self, the Universal Life Force, should not be overshadowed too much by our learned beliefs and judgements. It is important to be aware on what level of our awareness we are deciding and acting.

The more we are in tune with our Soul and Universal Life Force the better, as our actions are in tune with the whole universe.

Gnome Magick Story

Amirah

Do you believe in Elementals?

Personally, I didn't give them much credence until on day while hiking along a river at Mount Shasta, CA. As I entered the nature trail, I mentioned to my companion that I sensed a whole pack of beings following us. Have you ever felt someone following you, so you turn around to see who it is? Well, I did just that and there was nothing visible to the naked eye. Tuning within, I began to communicate to who it was following us.

It was a large group of Gnomes! They wanted to know who we were and what we were doing entering the forest and continued to stay with us. I told them we just wanted to spend some time in the forest and meant no harm to them or the forest.

It was in the fall; the colors were vivid and the air was crisp. The sun was so bright that the forest seemed to be celebrating. We stopped along the path to take some pictures and my friend leaned over a small fence and lost her sunglasses down the steep cliff to the river bank. She tried to convince me to help her retrieve them but we were not prepared to or skilled to descend the drop off.

I suggested that maybe on our way back we could find a more approachable way to fetch the glasses. In my mind, I was thinking, "the glasses are her gift to the river".

So, back on the trail again, I pondered asking the Gnomes to help us get the sunglasses back. They told me they would but they wanted money for it. Hmmm! isn't that the way the world works!

Having left my purse and all money back at the car, I asked my friend if she had any money with her. She didn't either. I didn't bother explaining why I would ask such a crazy thing and left it at that.

Meanwhile, the dialogue continued with the Gnomes. They insisted they wanted money and then mentioned they wanted the gold pebble. Before leaving for Mount Shasta, I had put some colorful pebbles in my backpack to give away without knowledge of where or when.

So, I made a deal with the Gnomes. Apologizing that I didn't have any money, I'd pay them in pebbles if they helped my friend get her sunglasses back. We continued our hike, reached the beautiful waterfall, meditated awhile then started our return back to the car.

Gnomes Dwell Within the Spirit Realm

Gnomes belong to the family of Elementals that are mystical creatures who dwell within the spirit realm of the elements. Elementals can be related to "nature spirits". These are the spirits that govern all nature, the forces of life that may be summoned to assist in working magick.

Gnomes are the most substantial of the elementals.

They possess a vibratory rate that makes them invisible to humans, but one that is still close enough to the lower physical vibration for them to interact with it. Their actions are reflected in the presence of mineral deposits, the erosion of rock, and the formation of crystals and other geological formations. They dwell in holes, mines, and caverns.

They are the most like humans in personality, with all its good and bad points, but they are especially prey to all the weaknesses in human nature. They can be called upon for help with money matters, stability, and growth.

In ancient legends the Gnomes were protectors of secret treasures concealed in vast caverns beneath the earth. The old sages taught that the Gnomes were not naturally inclined to aid humankind, but if a person won their confidence and trust they would prove to be valuable allies. However, like all elementals, it was dangerous to deceive them or misuse their aid.

Gnomes Can Influence the Human Mind

Elementals work through the subjective nature of men and women and have the capability to bring about gloom, melancholy, and despair. Conversely, Gnomes can also bestow confidence, steadfastness, and endurance.

Gnomes are ruled by a king whose name is Gob. His followers came to be called Goblins as tales of them were told and retold over the centuries. They usually appear to humans as small, dwarf-like creatures.

As we approached the area where the sunglasses rested on the steep rock ledge high above the river, my friend began to detour down to the river's edge. When the boulders became too large for me to climb, she handed me her back pack and I waited for her.

My friend disappeared into the tall brush and I began communication with my Gnome friends again. Digging into my backpack, I discovered more rocks than I thought and didn't remember the gold pebble they told me they wanted. And, I found a couple of pennies in the bottom of the pouch that I had no idea were there. So, I laid out the gold and bright green pebbles and the pennies on the top of a huge boulder for them.

I turned around slightly and looked down and tucked neatly under a rock was a pair of gold rimmed reading glasses resting on a pile of leaves. It was if someone laid them there for safe keeping. I couldn't believe my eyes. I was shocked!

The Gnomes were having a field day with me. They roared with laughter. They brought me glasses all right! But that wasn't our deal. So, I abruptly, I stood my ground and reminded them that they agreed to bring my friend to me unharmed with the dark sunglasses. Until then, I would reclaim their pay.

Within minutes, my friend yelled out that she got the glasses. She told me she had fallen into a large hole and then asked for help. Out of the blue, she felt a little push and she reached over the rock ledge and grabbed her glasses.

She returned unscathed with her sunglasses in hand. As she slid down the boulder where she left me, I showed her the glasses that the Gnomes brought me while she was gone. With much excitement and gratitude to the Gnomes, I happily gave them their just reward for a job well done. I finished the hike with another reminder to ask for what I desire, and give joyfully for the support received. Later that day, I was reminded about how mischievous they can also be.

Warning! Care needs to be taken when calling the aid of elementals. Elementals are not always the helpful little creatures we'd like them to be, and can be mischievous, bad tempered little devils if allowed to get out of control.

Feline Fun

Rev. Nehal

This week in Feline Fun – How about some cat one-liners???

Did you hear about the cat who drank 5 bowls of water?
He set a new lap record.

Did you hear about the cat who swallowed a ball of wool?
She had mittens.

What is the difference between a cat and a comma?
One has the paws before the claws and the other has the clause before the pause.

What do you get when you cross a chick with an alley cat?
A peeping tom.

Why don't cats play poker in the jungle?
Too many cheetahs.

What is a cat's favourite song?
Three Blind Mice.

What did the freshman computer science major say when he was told that the work stations had mice?
Don't you have a cat?

What is a cat's way of keeping law & order?
Claw Enforcement.

How did a cat take first prize at the bird show?
He just jumped up to the cage, reached in, and took it.

Why did a person with an unsprayed female cat have to go to court?
For kitty littering.

Why did the litter of communist kittens become capitalists?
Because they finally opened their eyes.

Poets Retreat

Destiny or Choice?

How much are you in control of your life?
What you do,
And what you end up doing?
Your career, your health – bad or good,
Your hobbies and the people you meet,
And in the end, your death?
Do you have some say in it?
Or do you even have ANY say in it?
The person who lived healthily –
Ate right, drank right, slept right,
In the end dying from cancer;
While the person who partied all hours,
Drank so much alcohol and was on friendly terms with drugs,
Happily living to be 80 years old.
So maybe it's all written down,
Before we are even born?
The person committing suicide –
Is that really their own choice?
Or maybe they didn't really have a choice
And it was their destiny
To die on that day and in that way?
I wonder what our life is,
A series of choices,
Or destiny making our choices for us?

THE ORDER OF WEB WEAVERS CRYSTAL WEB MAPPING PROJECT

The Order of the Web Weavers has been working diligently on mapping the Crystal Web. If any of you have a crystal that you have added or removed from the Crystal Web contact us to ensure are records up to date and accurate.

The information we need in order to best catalogue your crystal/s is the following. Your Craft Name and E-mail Address along with your City, State, Country, Latitude, and Longitude. Sent to the following e-mail address: wwcw@correllianorders.info

Please include the above information, if you have removed your crystal from the Crystal Web along with 'Remove' in the subject line. If you have added several crystals then we would need a separate entry for each crystal, unless they are located together. If they are located together then please include how many crystals are at that location.

We are excited about this project and hope that you will be too. Once the crystals have been properly catalogued we can then begin placing them on the map program. This will give us a good visualization on the Crystal Web. Thank you in advance for your participation in this wonderful project.

Bright Blessings,
The Order of Web Weavers

THE ORDER OF WORLD WALKERS

This Correllian order is headed by the Rev. Krystel High Correll and she is offering training for those who wish to join the order. The training consists of twelve lessons, one a month, for a year, offered through e-mail.

The purpose of this order is to fulfill the deeper purposes of the Correllian Tradition--advanced psychic and spiritual work, primarily conducted on multi-dimensional levels. This work includes:

Learning to connect and work with your spirit guides. Conscious dying and conscious incarnation. Advanced dream work. Exploring the known boundaries of the multi-dimensional universe, then conducting independent work to go beyond those boundaries. The study of time and advanced work within it. Soul rescue (helping those who are not aware they have died, or are not willing to cross over). Mediumship (being a voice for the so-called dead, visiting the land of the dead and communicating with them, and building a pathway between the living and the dead). Healing, both personal and of our Earth.

These purposes are divided among five houses that consist of the members who are dedicated to the work of the House.

The Order of World Walkers is a working order. The training is only the beginning. Each of the houses offer work that can be done for the rest of your life, if you choose to do it.

I believe that everyone who chooses to become a member of the order chose this before coming into this life time to continue work begun in other lives.

For more in-depth information, including the cost of the lessons, contact me at krystelneuman@yahoo.com

May You Blessed Be
Krystel
